

# Unwarranted deaths threaten Deltans

**BY DOMINIC ADEWOLE, Asaba**

**D**elta State government has mandated the Commissioner for Health, Dr. Arthur Ifeanyi Okowa to investigate the petitions of unwarranted death of patients recorded in the Federal Medical Center (FMC), Asaba.

Dr. Festus Okunbor, Commissioner for Information, Delta State, made this known to journalists after the state's Executive Council meeting (EXCO) held yesterday in Asaba.

The commissioner said "the state government cannot fold its arms and watch Deltans dying on a daily basis while petitions are flocking the Government House, reporting cases of quoted and unquoted, unwarranted deaths at FMC."
