## Trailer crushes 2 brothers to death in Edo

**BANJI ALUKO - BENIN CITY**

TWO brothers were, last weekend, crushed to death by an articulated vehicle in Uromi, Esan North East Local Government Area of Edo State.

The duo were said to be returning to their hometown in Ubiaja through a

motorcycle, after attending a function at Irrua, about five kilometres from Uromi, when the accident occurred.

Eyewitnesses said while the rider of the motorcycle escaped death, the two brothers were crushed beyond recognition.

They also added that youth, who were mobilised

from Ubiaja, descended on the articulated vehicle loaded with palm-kernel and set it on fire, after they realised that the driver had escaped from the scene of the accident.

A police source at Uromi police station said the police command was investigating the cause of the accident.
