## Passenger jumps off moving train, dies

TOLA ADENUBI - LAGOS

AN unidentified young man, probably in his early 20's jumped off a moving train and died around Iju area of Lagos State.

According to findings, the young man had apparently jumped down from the fast moving train after being alerted by passersby that a team of anti-crime policemen have laid ambush for rooftop riders at Agege station.

It is not uncommon to see young men sitting on top of fast moving trains in Lagos. Although the Nigerian Railway Corporation (NRC) has consistently reiterated the fact that rooftop riders are not legitimate train passengers, the act has continued unabated even though many have been arrested and put behind bars.
