Osun State Commissioner of Police, Mr Fimihan Adeoye who led the contingent of security agents to the location confirmed to our correspondent that concerted efforts were ongoing to apprehend the fleeing kingpin and others involved in the nefarious acts, with a view to bringing them to book.

The ritualists' den is located around Molete area of the community, spreading across a building, which accommodates many shrines and several adjoining houses, being used by the suspected ritualists for their deadly operations.

Addressing journalists at the scene of the crime, Adeoye said, "we acted on a reliable tip-off which led to the arrest two brothers of same parents, while their kingpin and leader is still at large."

Findings indicated that there is a dungeon with the path, which connects shrines together, coupled with several statues and a sizable number of alcoholic bottles scattered around the shrines, while shallow graves dug by the suspects for their victims were also spotted, but the Police explained that investigation was still on over the ritualists' den.
