## Police recover woman's corpse from Kano apartment

Kola Oyelere | Kano

THE police in Kano State have recovered the corpse of a woman who was allegedly locked up in a solitary room by her husband for three days.

The incident occurred at Mariri Quarters in the Kano metropolis.

The image maker of the state police command, Abdullahi Haruna, confirmed the incident,

saying that investigation has been launched into the matter.

A source who craved anonymity alleged that the woman lost her life due to unlawful confinement.

The source said the smell of the decomposing body led to its discovery after disturbed neighbours invited the police.

The corpse, according to source, has been evacuated to a mortuary.
