

# Please, stop these killings

**T**HIS is a call on the authorities to please help stem the tide of killings within the neighbourhood of Ojo town. It has been noticed that the killings within this peaceful town, is as a result of reprisal attacks between two major rival cult groups at the Lagos State University.

However, due to the very tight security put in place by the new administration, in the Ojo main campus, the cult groups have decided to carry their hostilities outside the campus. More than 20 students have so far been killed in the last two months and I witnessed seven of these murders.

Recently, the 'PPL' area of Okokomaiko witnessed the daylight

slaughtering of four students who were suspected to be cultists, when a group of cultists stormed the location and launched an offensive which lasted a few minutes. This came on the heels of an earlier attack on the leader of the rival confraternity during a service in his church last Sunday. He was axed down right in front of his fiancée in the premises.

We're tired of these brutal killings and the murdering of young lives. It is a waste. We now live in perpetual fear, because we don't know when and where the next attack will be executed.
