

Madman's corpse poses health threat in Ore

THE health of residents of some areas on the old Benin Road, Ore, Ondo State, is in serious danger as the corpse of a madman who died some days ago has started to decompose.

It is still unclear what killed the mentally-de-ranged man, who had been in the town for some time.

The odour oozing out of the body is also becoming unbearable.

Residents fear that the failure of the concerned authorities to remove the decomposing body may lead to an outbreak of epidemic in the town.
