

Stray bullets kill four in Saki

FOUR secondary school students were last week killed by stray bullets during a peaceful demonstration staged by students of The Polytechnic, Ibadan, Saki campus, in Saki, Saki West Local Government Area of Oyo State.

A businessman, who spoke with this writer on Saturday, could, however, not say what the agitation of the students was about.

But he explained that the protest turned sour when non-students in the town joined them and turned the whole exercise into a riot.

He said the whole town was thrown into turmoil and the police had to be drafted to maintain the peace.

In a bid to restore order, the policemen shot in the air and in the process, four innocent secondary school students were hit by stray bullets.
