

Three dead, 10 others injured in youth clash

BLOODY crisis broke out in Guyuk Local Government area in Adamawa State on Monday over the governorship elections petition at the Court of Appeal and the forthcoming local government council elections in the state, leaving at least three persons dead and 10 others injured.

Our correspondent gathered that trouble started on Monday in a *Burukutu* house when youth from two different communities engaged themselves in a political argument.

A group was in support of the nullification of Governor Murtala Nyako's election at appeal court while the other group was against it, a situation which lead to a youth stabbing another with a knife.
