

Varsity lecturer crushes student to death

A female lecturer of the Electrical Engineering Department of the Federal University of Technology Minna, (name withheld) on Tuesday crushed one of her students, Mr. Istifanu Tokan, to death on the campus.

The woman who was driving a Mercedes Benz car on her way to a lecture, was alleged to have hit Tokan, a 500 level student at the Gidan Kwano permanent site of the university as the student was also rushing to attend the lecture.

Our correspondent gathered that the deceased, was on a commercial motorcycle and that in order to avert a head-on collision with the lecturer's car he jumped off the bike, but was killed in the process.

The deceased student hailed from Manchok in Kaura Local Government Area of Kaduna State.

The National President, National Association of Nigerian Students, Mr. Abdullahi Ebiloma, and the FUT Student Union President, Mr. Eniola Ómisola, confirmed the death of the student in an interview with our correspondent in Minna, on Wednesday.

They said that the remains of the deceased earlier deposited at the Minna General Hospital mortuary had since been taken to Kaduna for burial.
