Nigerian Air Force jets attached to Operation Thunder Strike have reportedly neutralized several Ansaru terrorists and bandits at their camp in the Kuduru Forest area of Kaduna State.

This was achieved during the airstrikes carried out on Thursday on the heels of intelligence reports indicating the convergence of bandits

linked to the Ansaru terrorist group led by one Mallam Abba, at the location.

Aerial surveillance missions conducted over the area also observed several bandits wielding weapons in the forest.

The Coordinator, Defence Media Operations, Maj. Gen. John Enenche, disclosed this on Saturday in a statement titled, ‘Operation Thunder Strike hits bandits’ camp at Kuduru Forest, Kaduna.’

It read, “Several of the bandits were killed as the attack aircraft strafed the area, while others attempting to escape were mopped-up in follow-on attacks.”

A video clip showing the attack captured the terrorists fleeing shortly before the jets bombed the location.
