Two suspected vandals were electrocuted in separate incidents within the franchise areas of the Jos Electricity Distribution Company.

According to the organisation's Head of Corporate Communications, Dr Friday Elijah, their identities of the vandals are yet to be ascertained, as they were discovered in compromised positions.

"One of them was electrocuted on the high tension line at the Dukku 33KV feeder in Gombe State," he said.

While calling on customers to keep off power equipment, Elijah added that residents had a responsibility to protect and not tamper with power installation 

“The second suspect was also electrocuted in the cause of trying to vandalise the Abua Yaji substation’s 33KV Katsina-Ala feeder in Benue State.

“The two incidents were promptly reported to the police in Gombe and the BCC Police Division near Gboko,” Elijah stated.

The police visited the scene of the incidents and had evacuated the corpses.
