

Gunmen kill 11, injure many in Southern Kaduna

Godwin Isenyo, Kaduna

GUNMEN have reportedly attacked communities in Kagoro and its environs in the Kaura Local Government Area of Kaduna, killing 11 residents while scores were injured.

It was gathered that the attack happened on Thursday evening where six residents were killed on

the spot.

Our correspondent gathered that five more bodies were found and recovered on Friday morning.

A source further told our correspondent that several residents were injured during the attack.

He said, "Apart from those that have been confirmed killed by the attackers, I cannot give you the

number of those injured because people took their injured relatives to the hospital for treatment. It was a massive destruction visited on the people by the gunmen."

According to him, normalcy has returned to the town as residents are going about their normal businesses.

This was as he said security operatives were patrolling the town

to forestall further breakdown of law and order in the ancient town.

There were no official reactions or confirmation either from the state government or the police.

The Police Public Relations Officer in the state, Mohammed Jalige, promised to reach out to the Kafanchan Area Commander for details.
