

Kidnappers invade Lagos community, kill 2 men, abduct lady

By **Itoro Godwin**

Suspected kidnappers on Tuesday night invaded Whitesand area of Isheri Oshun in Alimosho Local Government, killing two persons and abducted a lady.

Daily Sun gathered that one of the two men killed was a community leader and chairman of the Community Development Association (CDA), Mallam Musa. The second victim was an unidentified block moulder.

Investigation revealed that the kidnappers stormed the Whitesand area around Iwa block and laid siege to a residence.

It was gathered that the owner of the house who recently moved to the area was not at home but his family was at home.

"The family called the man and he in-turn put a distress call to our chairman", said a resident.

According to him, "when the chairman, Mallam Musa arrived around 7.30pm, he drove straight to his house, packed outside and raced to answer the distress call. He was shot by the kidnappers who were trying to escape after abducting a lady. A labourer was also shot dead by the hoodlums before they escaped," he said.

Some of the residents were seen at Isheri Police Station, yesterday morning, where they met with the Divisional Police officer (DPO).

The DPO assured that the police would increase their surveillance in the area.

Sources closed to the meeting disclosed that the DPO described the late Musa as personal friend.

Meanwhile, his remains have been deposited at the morgue of General Hospital, Isolo.
