

The petition further alleged that the same officer had on April 30, 2016, while in charge of a police outpost in Kem village, Shelleng Local Government Area of the state, killed four people suspected of committing robbery.

“We, as a concerned organization, consider the act of the suspect (policeman) as an act against the provision of the constitution and infringement on the fundamental rights of the people in question. If such act is not checked, it will continue to spread like wild fire and eventually Nigeria will be unsafe for its citizens,” it added. Spokesman of Adamawa Police Command, Othman Abubakar, said the policeman had been arrested and detained as investigation continues into the case.
