SEVERAL persons were feared killed on Sunday, following a deadly attack by suspected herdsmen on five communities in Numan and Demsa local government areas of Adamawa State.

The attackers also invaded Lau Local Government Area of neighbouring Taraba State, destroying properties.

Eyewitness reports said the attackers arrived in the communities on motorcycles, shooting indiscriminately into the air.

Member of the Adamawa State House of Assembly representing Numan, Sodom Tayedi, confirmed the invasion.

He said the attack caught the communities unawares as it was a market day in one of the communities.

According to him, the attack started around 4pm on Sunday and lasted late into the night.
