

Organ harvesting: I collected N3m, killed two of my victims, says native doctor

From Uchenna Inya,
Abakaliki

The Ebonyi State Police Command has arrested one Eze Elechi, a native doctor for allegedly killing Chikezie Idenyi, Chibu Odii and Eze Fabian in order to extract their blood and organs to cure a cognitively impaired

person.

The police also arrested one Innocent Elebe in connection with the crime. The two suspects were among the 177 suspects arrested by the state police command in October for various offences, ranging from organ harvesting, ritual killings, kidnapping, murder, gun running and unlawful possession of firearms.
