It was gathered that the attackers invaded the area at about 9: 45 pm on Sunday, when residents of the community had gone to bed and started shooting sporadically during which they killed four people.

This was as the Police Public Relations Officer (PPRO) of the state command, ASP Moses Yamu, said six Fulani herdsmen had been arrested in connection with the attack, while investigation had also commenced.

But, a source from the community, who preferred anonymity, said several other people were injured in the attack while many others were still missing.

The Sole Administrator of the Local Government, Mr. Joseph Apera, who confirmed the incident, said only one person was killed in the attack, while three others were seriously injured.

Akpera, who expressed worry over the influx of cattle into the area, said the incident occurred at about 9 pm in Saghev district, while the people were already asleep.

"There was no provocation. They just came in and hacked down our people with matchete before they ran away.
