Meanwhile, a student of the Federal Polytechnic, Bauchi was on Friday night killed in a motor accident close to the second gate of the institution.

This came barely 10 days after a student of the Bauchi State University and two others on a motorcycle were killed in a similar incident by a reckless driver.
The Public Relations Officer (PRO) of the polytechnic, Rabiu Wada, confirmed the incident to newsmen.

He said: "One of our students who was returning home from his lectures on a motorcycle was knocked down by a driver. Efforts were made to save his life but he couldn't make it.

"We rushed him to the Medical Centre of the polytechnic and from there, he was transferred to the Abubakar Tafawa Balewa University Teaching Hospital, Bauchi, where a doctor confirmed his death.

"The next day (Saturday), some students of the institution came out to protest to express their grievances over the recklessness of motorists on the road around the institution."
