am not asking for votes but for love. So we can love one another."

Air strikes destroy B'Haram storage facility in Borno –Military

Emmanuel Onani
ABUJA

Military said it destroyed a logistics storage facility operated by suspected Boko Haram Terrorists (BHTs), within the Gulumba Gana-Kumshe axis of Borno State.

It said the destruction followed intensified air strikes by the Nigerian Air Force (NAF), which form part of the ongoing military operation in the North East tagged, "Operation Lafiya Dole."

The Coordinator, Defence Me-

dia Operations (DMO), Major General John Enenche, made the disclosure in a statement.

He said: "The Air Task Force of Operation Lafiya Dole has destroyed a Boko Haram Terrorists (BHTs') logistics storage facility and neutralised several of their fighters at Yamud along the Gulumba Gana-Kumshe axis of Borno State."

Enenche said the operation was executed on Tuesday on the heels of credible intelligence reports indicating that the settlement was one of the locations where the terrorists stored their

logistics and assembled to launch attacks.

He added: "A series of follow-up aerial surveillance missions also showed significant number of terrorists within the settlement and also identified some compounds that were being used as storage facilities and meeting venues.

"The Air Task Force detailed its fighter jets to attack the location, scoring accurate hits, leading to the destruction of the designated target structures as well as the neutralisation of several of the terrorists."
