**... police arrest 3, as manhunt for other killers int**

Just three days into the New Year, the number of cult related killings and assassinations in Anambra State has increased to nine following the killing of three more persons, this is after the killing of the President General of Obosi Community in Idemili North Local Government Area of the state.

This is coming two days after six persons were gunned down at Okpuno and Ekeh Awka market respectively in what is feared to be a cult reprisal attack and battle for supremacy.
