

Bandits attack Kebbi community, kill 2, abduct 7

Two people have been reportedly killed and six others abducted by gunmen in Kwarikwarsa village in the Maiyama Local Government Area of Kebbi State.

The hoodlums reportedly invaded the community in the early hours of Saturday to carry out the attack.

Governor Nasiru Idris, who visited the community, said the government had put measures in place to avert a recurrence.

He also said his administration had given the security agencies all the necessary support and cooperation towards combating criminalities across the state.

“We will leave no stone unturned until we secure the state and make it a place where people will sleep with their two eyes closed, peacefully cultivate their farmlands, and go about their normal businesses without any fear,” Idris said.
