However, it was not clear the number of those that were injured in the accident as it is being suspected that many people may have sustained injuries and trapped under the vehicle and the affected shops at the market.

Confirming the incident, the President General of Abagana Community, Mr Ben Okongwu, said three persons died on the spot, but could not state the number of those injured. It was learnt that the Toyota Sienna car lost control while on a high speed which led to the vehicle ramming into the shops at the market.

When contacted, the state Road Safety Corps said it was just hearing of the accident, but stated that officers and men would be going there to assist victims and control traffic in the area.
