Unlike other militants in the state, the 30 year Kitikata, like most militants was uneducated but his leadership qualities were derived from his activities in the region.

Although it could not be confirmed if the killer was waylaid and killed by security operatives on his way to the Nembe militant surrendering centre for his atrocities in the past for killing several soldiers and police men, THISDAY gathered that he was expected to show up at the arms collection centre of the Presidential Amnesty Implementation Committee.

He was said to have died of injuries sustained in the shoot out at his Obioku Community camp.

The death of Kitikata was greeted with shouts of joy in Nembe where his activities are well known.
