

The last 12 months have indeed been most traumatic in the 55 years history of this country. There is too much human blood on our land; blood of the innocent. Human blood is sacred. A nation that overlooks the shedding of blood will never make progress. Rampaging herdsmen and Boko Haram terrorists have spent the last 12 months killing Nigerians. The Boko Haram guys have been with us for some time. However, it was never this bad. Under Buhari's watch, these bloodthirsty terrorists slaughtered almost 3000 Nigerians. Many will not forget in a hurry the massacre at the Dalori IDP camp which claimed 86 lives; the 50 people killed in Sabon Gari Market in Damboa; the 30 people killed in Yakshari and Kachifa villages in Damboa; the 27 people killed in Molai-Umarari Village and the 60 people killed in Maiduguri and Madagali last December. In all, almost 3000 people were killed by Boko Haram in the last 12 months.
