

Lightning kills four, injures three others

By Emma Arubi

WARRI—THE people of Uwheru community in Ughelli South Council Area of Delta State were thrown into confusion after lightning struck an almond fruit tree killing four persons with three others sustaining serious injuries.

The thunder storm believed to have been sent by evil forces also destroyed a National Union of Road Transport Workers bus stop

close to the Uwheru Police Station where the victim had taken refuge during the heavy down pour.

Among those affected were men and women from Mbiama market in Bayelsa State some of whose names were given as Sonny Ezekiel, Ephra, Madam Echoba Oga and a young girl.

Community sources reveal that the tree play host to witches and wizards as coven even as angry members of the community have allegedly cut down the tree.
