PORT HARCOURT— ONE person was shot dead yesterday and two others sustained severe gunshot wounds when robbers stormed a pools office around Education bus stop area of Port Harcourt.

Apparently, the underworld men acted on a tip off that the operator of the pools office, Mr Olukayode had gone to bring cash to pay winnings for last weekend. When the robbers gained entry into the pools office, they immediately shot the operator on the leg to demobilise him. Not satisfied, they further shot one of his sons also on the leg. The second son was not lucky as he was allegedly shot around his heart region, causing him to give up the ghost on the spot.

There were speculations after the robbers had fled with the money running into several thousand naira that they probably killed his son because he recognised them.
