NSUKKA—A prominent medical doctor in the university town of Nsukka, Enugu State has been abducted by a six-man gang even as armed robbers shot dead a tailor at Ofulonu Road.

Vanguard gathered that the medical doctor who was identified as Dr. M.A Sadiq, a staff of the University of Nigeria, UNN, Medical Centre, was kidnapped in front of his private hospital, Mount Arafat Hospital, 59 Aku Road Nsukka on Saturday.

Vanguard gathered that the six men waited in front of the hospital for hours for the doctor to finish attending to his patients before abducting him.

The kidnappers reportedly gave the medical doctor the beating of his life before he was hand-cuffed and dragged into his own private car with which they took him away.

Vanguard learnt that the kidnappers came to the hospital on foot and that the security man, Mr Sani who tried to save his master from being taken away was beaten black and blue by the hoodlums who shot sporadically into the air to scar away people from the scene.
