The employer of the deceased has a case to answer for not providing safety measures for their employees and for exposing him to job hazards. The family of the deceased show look for a competent lawyer to take the employer head on if not they will not improve the safety of the workers and they will not pay adequate compensations. May God save Nigeria from ENEMIES WITHIN

Why should bees sting a man working so hard?. I wish these hordes of bees can find their way and deal with corrupt politicians instead . There are so many Nigerian corrupt politicians that need daily bee stings until they refund their loots. I have the feeling that these bees are actually on their way to Ibori's house.

Sad though, but i know that others will have to learn from the unfortunate incident...Believing that laws will be put in place (just as Terry4 Brandy had said) by the Government to avert further occurrence of such sad end, as this will put lawless company owners who know what safety

measures to imbibe but would not for lack of value to human life.
