Oil Exploration , Production & Sales with inflow of billions of Dollars, how well is this proceed distributed – The timing youth are roaming the streets without job while the politicians are feeding fat and Oil & Gas bearing communities are daily degraded to abject poverty and sorrow – No water, Light, Food, Hpusing, farming , fishing support. To avoid kidnapping, pump more money into Mechanised Agriculture Farming in kwale & other places with land space, Shallow & Deep Sea Trawler fishing in the riverian areas and Industries in the Rural & Urban centres for the unemployed with complex housing Estate full with modern facilities. The Boys will stay off the street. An idle mind is the Devil's workshop. A stitch in time saves Nine. Governors of the South South States wake up and do something before it is too late, soon the Boys will be targeting ex – Governors and their ill gotten wealth. God save and help Nigeria.

We are no difference frm our rulers dat's why I've alwaz seen no hope in dis country . An average Nigerian lacks knowledge, wisdom, understand and sensibility. Go to our universities, where u are suppose 2 see enlightened ones amongst us, what do u see? rogues and harlot, bunch of unserios and visionles unambitious students portraying as undergraduates . If u can't be part of d solution then u are part of the problem. How can u help ur country without d true essence of education? I agree wit Lord Lugard wen he says our minds are far nearer to the animal world.

we have been saying this from time that a time will come and the vicious circle will manifest due to neglect of the citizenry by the ruling class...i pity for the rich who thinks he/she can loot public treasury and enjoy the loot in peace in these modern days wey everybody eye do open.
