I'll tell you why your point is invalid. When the bomb was dropped in japan, no one said praise jesus and the act was not done to propagate middle eastern mythology or what you call religion

PHCN needs to get too many powerful people are benefiting from the behemoth and wouldn't let go of it. Until the court start charging PHCN for this problem, we will continue to witness electrocution on a daily basis in Nigeria.

Where are the legal luminaries?, Why are criminal charges and civil case not brought against Power holding company or NEPA or whatever they are called now. This is gross negligence and corporate multiple manslaughter case against them. When will Nigerians arise and make monies from all these weak, feeble and poorly managed institutions that always do things wrong?. May God save Nigeria from ENEMIES WITHIN

Electrocutions seem to be replacing the carnage of boko haram, road and air accidents, murders and kidnappings. Is this price to be paid for constant supply of electricity?
