BY AUSTIN OGWUDA

ASABA — FIGHT broke out, Wednesday night, between two neighbouring communities of Umusedi and Umuseti in Kwale, Ndokwa West Local Government Area of Delta State, over lingering land dispute.

Already, one person was reportedly killed while several persons have sustained injuries while some residents in the area have fled.

Member representing Ndokwa West constituency in the state House of Assembly, Mr. Azuka Azaka, while moving a motion of urgent public importance during yesterday's sitting, said he was uncomfortable over the bloody encounter.

He expressed fear that if urgent intervention was not made, the matter could result to full blown war as the two warring communities had allegedly armed themselves to the teeth.

He said during the cross fire in which sophisticated weapons were freely used, one person was reported dead and several others wounded.

Member representing Warri South I, Mr. Dennis Omovie seconded the motion which was unanimously adopted.
