OWERRI—Commercial tricycle, *Keke NAPEP*, operators, who ply Owerri Main Market-MCC Road-Uratta axis in Owerri, have protested alleged ritual killing of one of their colleagues.

One of them told *Vanguard* that their colleague was last seen alive on Monday, when he was hired by passengers to move them to a village located along Owerri-Aba federal highway.

The tricycle operator said when their colleague did not return, they quickly reported his disappearance to the police.

He said: “A search party was organized. The lifeless body was later discovered, but some of his vital parts were missing.”

Their peaceful demonstration resulted in commuters trekking to and from their destinations.
