

He is blood thirsty!

• *Robbery suspect curses partner for shooting business woman dead after they had robbed her*

Chukwu Nonso Mishack, a 26-year-old assistant driver, aka motor boy, claimed to have been part of the armed robbery gang that murdered one Mrs Joy Okike, a business woman, in Benin - City. According to Nonso, his partner shot the 36-year-old woman dead after they had collected all she had on her.

He narrated: "OZ and Friday are members of our gang. I saw them one day sharing money and I pleaded with them to help me with some of the money. They gave me some money and asked me what I was doing for a living and I told them I was a motor boy. They asked why should I be doing such a work? So they wrote down their telephone numbers and gave me. About two weeks later, I called them and they came to pick me up. That was how

we started robbing people. In the case of this woman that was killed, we accosted her while she was entering her house. We had collected everything from her after which I entered our vehicle. I was now shocked when I heard gunshots. After that, my colleague came to the car and I asked him who he shot. He said I should forget the matter. But I was angry and I told him that the blood of that woman will be on his head and not mine. They dropped me at Iyaro and said they wanted to go and drop the car and meet and me up. As we drove along Iyaro, Oz told me that policemen were looking at us. But I found out that we were not the ones they were looking at, but, suddenly, Oz started running and I followed. Friday jumped a fence but I could not. The policemen came after us and I was arrested. They took me to New Benin Police

Station and, from there, I was brought here. OZ and Friday escaped. I was the only one arrested. I was not the one that killed the woman. I have never killed before.

***Nonso... suspected robber**

But I am pained that OZ killed that woman even after we robbed her of money and other valuables".
