KADUNA — MILITARY jets have bombed and killed several bandits including four notorious ones who were hiding in a valley located outside Kaduna town.

The state government, through the Commissioner, Ministry of Internal Security and Home Affairs, Samuel Aruwan, who confirmed the development, said the four notorious bandits were neutralised in a valley popularly known as 'Maikwandaraso' in Igabi Local Government Area.

The Commissioner said yesterday that the four identified bandits were neutralised via air

interdictions when the military engaged the bandits at the location, as part of combined ground and air assaults on identified bandit enclaves.

The bandits neutralised were identified as follows: Alili Bandiro, Dayyabu Bala, Bala Nagwarjo, and Sulele Bala.

Several other bandits were eliminated in the same cycle of air interdictions and ground offensives.

Maikwandaraso is close to Karshi village, and shares boundaries with the infamous Kawara and Malul forests in the same Igabi LGA, which have been identified as the hub of several armed bandit camps and hideouts.
