

Gunmen shoot 3 dead in Edo community

THREE persons were reportedly killed at Uselu-Nahor community in Uhunmwonde Local Government Area of Edo State, Wednesday, following a leadership tussle.

The police spokesman, Katongs Bello, confirmed the incident but said he had yet to get further details.

It was gathered that the gunmen attacked the victims, one of whom was the chief security officer of the community, at their duty post at Ahor Kara.

The deceased were collecting parking fees from vehicles when the gunmen opened fire on them, killing the three on the spot.

Sources in the community attributed the development to the lingering leadership tussle in the community.
