built pedestrian bridge, instead of
crossing the road.

However, because the pedestrian

bridge location is very far from this
particular spot, people who have
businesses at the other side of the road
always cross the iron rail demarcation
after bending the sharp pointed irons
fitted on top.

Unfortunately, there was a naked wire
from a streetlight pole, making contact
with the rail and so, everyone trying to
cross the place yesterday, was shocked.
Three people were unlucky and died at

different times yesterday, after getting
electrocuted by the rail.

Concerned residents later tied a red flag
on the rail, while some people stood at
the bus stop, sending unsuspecting
people back to avoid further disaster.
