KANO, July 07, (THEWILL) - Fire service officials in Kano state have confirmed that no fewer than 6 persons were feared dead in Kano when a Toyota bus conveying nine passengers plunged into the Fada dam after it lost a tire.

A survivor, Malam Kamal Dandume told THEWILL that the bus had passengers from Funtua and Malumfashi towns.

Kamal Dandume explained that he survived because he could swim adding that he lost two relatives in the crash.

The bus with registration number XA 438DTF was travelling from Dandume in Katsina State to Kano on Wednesday when the crash occurred.

A female passenger who is among the dead was found inside the bus when fire fighters arrived from Kano and assisted to remove the bus and victims from the dam.

3 of the survivors were taken to Gwarzo General Hospital for treatment, while the remains of the six dead passengers have been taken to a morgue.

Efforts to contact the Director Operation of the state Fire Service, Mallam Kassim Musa proved abortive, but an official who spoke to THEWILL on condition of anonymity confirmed the incident.
